SUMMARY

B.Tech IT student specializing in Cloud Computing with experience in **MERN stack**, **cloud-based systems**, and **ML-integrated applications**. Skilled in **Python**, **JavaScript**, and **C++** with a strong interest in software development.

EDUCATION

Alliance University

B.Tech Information Technology (Cloud Computing) – **CGPA: 8.82**

2023 – 2027

Bangalore, India

Mahabiri Saraswati Vidya Mandir

Class XII (CBSE) – **79.4%**

2023

Siwan, Bihar

Vatayan School

Class X (CBSE) – **82.2%**

2021

Siwan, Bihar

COURSEWORK / SKILLS

- **Data Structures & Algorithms**
- Artificial Intelligence
- Database Management System
- Web Development
- Operating Systems
- Machine Learning
- OOP Concepts
- Cloud Computing

PROJECTS

Parthrahi | MERN Stack, Google Maps API

- Built a full-stack **cab booking platform** with real-time route display and dynamic fare calculation via Google Maps API.

2026

Hybrid Cloud Collision Detection | Python, SUMO, ML, Cloud

- Engineered a **hybrid edge-cloud** vehicle safety system; owned cloud infrastructure setup and integrated **ML models** for real-time predictive collision analysis.

2025

FarmGrade AI | ML, React, Node.js

- Trained **computer vision models** to classify agricultural produce by quality grade; built the full-stack web interface using React and Node.js.

2025

Air Quality System | IoT, ESP8266, Cloud

- Built an end-to-end **IoT solution** with ESP8266 to stream sensor data to a **real-time cloud dashboard** for live environmental monitoring.

2024

INTERNSHIP

IBM – Edunet Foundation

AI Sustainability Intern

- Delivered **AI-driven sustainability solutions** addressing real-world environmental challenges using machine learning.

2025

Remote

Edunet Foundation

Frontend Web Development Intern

- Built responsive web applications with hands-on experience across **front-end and back-end technologies**.

2025

Remote

Freelance Developer

Full Stack Developer

- Designed and shipped **MERN stack** apps and **RESTful APIs** for coaching institutes, a Kabaddi academy, and industrial clients.

2025 – Present

Remote

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL

Cloud: Microsoft Azure, AWS (Learning)

Frameworks: React, Node.js, Express.js, MongoDB, MySQL, REST APIs, Git

DSA & Problem Solving: 100+ problems on LeetCode, C++ / Python

CERTIFICATIONS

• **GeeksforGeeks – Python Programming** • OCI Foundations Associate • Microsoft Azure Fundamentals • **NPTEL – Introduction to Machine Learning (Top 5%)**

• NPTEL – Database Management Systems • IBM – AI & Sustainability • IBM – Web Development Fundamentals • Infosys – Cloud Computing

ACHIEVEMENTS

• Google Hackathon 2026 – Participant • SIH 2025 – Internal Selection • PRAKALP'25 – Participant • IBM AI Workshop – Shortlisted

• **Solved 100+ problems on LeetCode**
